#### SCYC COVID-19 POLICY

BC's Public Health Officer has eliminated its (PHO) COVID-19 rules and regulations governing masks and vaccination requirements for both indoor and outdoor events. In line with these changes SCYC has lifted its rules with respect to the numbers that can gather at the Afterdeck, masks and vaccinations. Nevertheless, we ask all our members to be respectful of those that choose to wear a mask or social distance.

As we have seen over the past two years, these regulations are fluid and frequently change. SCYC's Executive is constantly monitoring these rules and their impact on the club's social programs, cruises and regattas. If necessary, members will be advised of any event changes directly, through the Scyline and on the SCYC website.

Members can view these rules and regulations at: BC COVID Regulations
